CLINICAL EXPERTISE
Prior to the Arrival of the Angel MedFlight Team

To ensure a seamless transition, please complete the following items prior to the Angel MedFlight team arrival:

- Send discharge summary to our medical team as soon as it is available by fax at 844.404.3948 or by email to flights@angelmedflight.com, including a transfer/discharge packet for the accepting facility.
- Maintain any current IV access.
- Hold tube feedings 2 hours prior to departure time.*
- Provide all scheduled medications, small meals, or treatments prior to discharge.

When the Angel MedFlight Team is On-Site

Our critical care flight nurse performs an on-site nurse-to-nurse report for continuity of care.

Our medical team assists with transferring the patient from the facility’s medical equipment to Angel MedFlight’s mobile units, including telemetry monitor, oxygen, and ventilator if necessary.

* Exceptions may apply based on the patient’s condition.

In 2014, Angel MedFlight transported Amy after she was paralyzed in an accident.
